

Final Examination Schedule - Fall 2022

All final examinations should be given in accordance with the schedule published by the Office of the Registrar. No regular course examinations (except for laboratory and one-hour courses) may be given during the 15th week of classes. Final exams should provide students a maximum of two hours to complete the exam, keeping in mind that students with accommodations for additional test time are exceptions. Instructors may set a shorter time limit for students to complete the final exam. All F2F and HYB final exams will take place in their regularly scheduled rooms.

All efforts have been made to minimize final exam time conflicts, but in the event a conflict arises, students are encouraged to consult with their instructors for identify a solution.

Classes with Scheduled Meeting Times (both online and on-campus): Instructors may choose to require that the final exam be taken synchronously or asynchronously.

- **Synchronous finals** must be given at the time listed in the published final exam schedule.
- **Asynchronous (unscheduled) finals** may be given starting December 12, 2022 and should be due no later than 2:00 p.m. on December 17, 2022. Instructors may choose to allow students to complete final exams asynchronously within a window of time. For example, a final exam with a two-hour limit may be available to students to complete between Monday at 8:00 am until Tuesday at 11:59 p.m.

Classes without Scheduled Meeting Times (online): Instructors may choose to require that the final exam be taken asynchronously or synchronously.

- **Asynchronous finals** allow students to complete final exams on their own schedule within a window of time. For example, a final exam with a two-hour limit may be available to students to complete from Monday at 8:00 am until Tuesday at 11:59 p.m.
- **Synchronous (scheduled) finals** may be required. In those cases, instructors should select from the final exam times marked [see attached pages] in the schedule published by the Office of the Registrar. Instructors should select the synchronous exam time that minimizes exam conflicts for students.

Proctoring Services: ProctorU is an AI proctoring service that can be used to proctor exams. Students do not have to register/schedule the exam in ProctorU, but faculty will have to add the exam, with a due date/time, in Blackboard to use the service.

- You can also access directions on how to add ProctorU to an exam here: <https://confluence.tamusa.edu/display/FGDI/ProctorU>
- If you have questions about how to add the ProctorU service to your exam in Blackboard please contact Kim Nanez at kjnanez@tamusa.edu.
