

Final Examination Schedule – Spring 2023

All final examinations should be given in accordance with the schedule published by the Office of the Registrar. No regular course examinations (except for laboratory and one-hour courses) may be given during the final week of classes. Final exams should provide students a maximum of two hours to complete the exam, keeping in mind that students with accommodations for additional test time are exceptions. Instructors may set a shorter time limit for students to complete the final exam.

All efforts have been made to minimize final exam time conflicts, but in the event a conflict arises students are encouraged to consult with their instructors to identify a solution.

Classes with Scheduled Meeting Times (both online and on-campus): Instructors may choose to require that the final exam be taken synchronously or asynchronously.

- **Synchronous finals** must be given at the time listed in the published final exam schedule.
- **Asynchronous (unscheduled) finals** may be given starting May 11, 2023 and should be due no later than 5:00 p.m. on May 17, 2023. Instructors may choose to allow students to complete final exams asynchronously within a window of time. For example, a final exam with a two-hour limit may be available to students to complete between Monday at 8:00 am until Tuesday at 11:59 p.m.

Classes without Scheduled Meeting Times (online): Instructors may choose to require that the final exam be taken asynchronously or synchronously.

- **Asynchronous finals** allow students to complete final exams on their own schedule within a window of time. For example, a final exam with a two-hour limit may be available to students to complete from Monday at 8:00 am until Tuesday at 11:59 p.m.
- **Synchronous (scheduled) finals** may be required. In those cases, instructors should select from the final exam times marked [see attached pages] in the schedule published by the Office of the Registrar. Instructors should select the synchronous exam time that minimizes exam conflicts for students.

Proctoring Services: ProctorU is an AI proctoring service that can be used to proctor exams. Students do not have to register/schedule the exam in ProctorU, but faculty will have to add the exam, with a due date/time, in Blackboard to use the service.

- You can also access directions on how to add ProctorU to an exam here:
<https://confluence.tamusa.edu/display/FGD1/ProctorU>

If you have questions about how to add the ProctorU service to your exam in Blackboard please contact Kim Nanez at kjnanez@tamusa.edu or submit a request through the [Help Desk](#).
